Proposals to state, if gas, price per lamp, and if electric light, the number of and power of the lights. The council reserves the right to reject any and all bids.

By order of the common council.
GEO. H. BATES, City Clerk.

ON THE BRIDGE,

AND

NOT ON THE FENCE.

I would rather be a tin weather cock rusted fast to the gable end of a barn, pointing to the east, than be a weather prophet. I should be sure then to be right once in four times. The man who is right once in four times is a bird; and the man who is right all the time is a daisy; and the man who is right on his goods and prices is bound to get there. We think we told you before that we manufactured all our clothing. We do. We said also that we could sell clothing as cheaply as other dealers buy. And we do. Our clothing trade since we opened has been unexpectedly good. and our motto is, "KEEP 'EM A COMING." This we propose to do, and thus we have inaugurated our special sales by department. It makes slim profits in that department, but what we lose on the profit we make up in volume of trade, so we shall not complain. This week it is on men's suits, and hats. From past experience you know a special sale with us means business. This is a one-price and a low-price store, and all goods are marked in plain figures; and a discount sale means a great saving of money. Our discount is always from the regular market price.

This sale will close at 10:30 p. m. Saturday.

PIXLEY & COMPANY,
ON THE BRIDGE AT JANESVILLE.

You Don't Need

To go to some city far off to invest for profit in real estate. You can't help making money faster, surer and more of it on same amount invested right here at home, provided you invest under the advice of those skilled in the art. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

Such Investments

May be found at our office every day in the week. Take, for instance, any one of those five lots on South Main street. They are the only lots north of Wheeler street on South Main that are purchasable on the east side of Main. We offer them at 20 per cent less than they are worth today. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

That Block

Surrounded by South Main, Carrington, Wheeler and Oak streets embraces three of the charming South Main street lots, two on Carrington, two on Wheeler and three on Oak. Every one of these lots are laid out on "the Carrington plan," that is, with liberal alleys in rear of every one. We will sell one or all of these lots at our present price and GUARANTEE that the buyer can sell them within five years at fifty per cent. advance.

Where else can you secure a SURE ten per cent. per annum investment? Call and see us. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

That Six-Room House,

Corner Gore and South Bluff streets, in Carrington, Wheeler & Whitehead's addition, approaches completion. It is as nice a home as any family can desire. We offer it for cash payment of \$200; balance on \$10 per month and long time. Take this and you will own a home as cheap as you can rent one. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

We Want To Build

Somebody a home on the best corner lot in Janesville—size 4 by 10 rods—the house to be as handsome a house, of moderate size, as we have seen for many a year. A good barn, and sell the whole on easy payments for \$2,150. This place will sell for \$3,000 in less than 5 years. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

If You Have.

\$7,000 to invest we will show you a place for it where it will pay you CLEAR ten per cent above taxes and insurance and in a property sure to advance over ten per cent. in value the next 3 years. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

For The Present

Our home, "Riverview," is out of the market. When a man comes along wanting the best home in Rock county, we will sell it, provided we can get from 15 to 20 per cent over cost, and occupy it six months till we can build a smaller house across the street. For six months' rental we will pay 5 per cent on selling price. Yours very truly,
GEO. L. & SARAH H. CARRINGTON.

THE FIGHT A DRAW.

Jackson and Corbett Fight Sixty One Rounds.

CORBETT MUCH THE BETTER MAN.

He Comes From the Ring Unscarred While Jackson's Lips are Badly Puffed and He Shows Other Signs of the Punishment He Received.

SAN FRANCISCO, May 22.—[Special.]—From 9:30 o'clock last night until almost day-break this morning, Peter Jackson and Jim Corbett stood in a twenty-four-foot ring in the gymnasium of the California Athletic Club. Sixty-one rounds they fought, and at the end of that time Referee Cook decided the match "no contest." Throughout the fight both men showed great caution. It was due to this fact that neither was badly punished. Corbett was in rather better shape than his opponent, he having but a few spots on the side of his face, while Jackson's lips were badly puffed out, and he showed other signs of punishment.

EIGHT HOURS DEFEATED.

The Illinois Senate Tables the Amendment to the World's Fair Bill.

SPRINGFIELD, Ill., May 22.—The amendment attached to the world's fair bill in the senate Wednesday making a compulsory eight hour day on all work done on the Illinois exhibit, was reconsidered and the bill with a \$1,000,000 appropriation sent to a third reading. The elections committee reported in favor of tabling the bill to allow women to vote at municipal elections. The report was concurred in by a vote of 27 to 21. The consideration of the house ballot reform bill and senate amendments thereto was made the special order for next Tuesday.

A joint resolution passed the house granting the Grand Army of the Republic associations of Illinois permission to hold their encampment on Camp Lincoln grounds, at Springfield, and to use tents, arms and all other contents of the property of the state. The Sons of Veterans were granted the same privilege. The senate joint resolution ceding to the federal government authority for post office and public building sites in certain cities of the state was adopted after being amended so as to include Rock Island, Rockford, Aurora, Bloomington and Oakbrook. The bill which appropriates \$132,500 per annum to meet the ordinary and contingent expenses of the Illinois National guard, and for the repair, improvement and purchase of ground for rifle ranges, was ordered to a third reading after some debate.

CORNER STONE LAID.

Illinois Odd Fellows Participate in an Interesting Ceremony at Their New Orphan Asylum at Lincoln.

LINCOLN, Ill., May 22.—Hundreds of odd fellows from all parts of the state attended the laying of the corner stone of the Odd Fellows' Orphan's home here. An imposing parade marched through the crowded streets at 2 p. m., winding up at the picturesque spot selected as the site for the home. The corner stone was laid by Grand Master R. W. S. Wheatley, of Du Quoin, Ill. At the conclusion of the ceremonies speeches were made by Alfred Orendorf, grand representative of the supreme lodge, and Past Grand Master Humphrey, both of Springfield.

The decoration of chivalry was conferred with full military honors under the direction of Brigadier W. H. Crocker, of Chicago. This honor was conferred on chevaliers who were recommended by the cantons and daughters of Rebekah and wives of chevaliers recommended by lodges of the degree of Rebekah. A public reception held in the evening by the grand lodge officers was attended by 2,000 citizens. The crowd in attendance was variously estimated from 15,000 to 20,000, and if the weather had proved propitious the resources of the city would have been taxed beyond accommodation.

HEAVY EXPRESS ROBBERY.

Twelve Thousand Dollars Stolen from a Car in Wisconsin.

ASHLAND, Wis., May 22.—On Monday a large sum of money was sent by express to the Northern Pacific from Chippewa Falls, consigned to a bank at Phillips. At Abbottsford the safe was taken out of the car and delivered to the agent for transfer to the agent running north on the Ashland line. Phillips being about half way between Abbottsford and Ashland. When the agent went to check it out to the receiving messenger Tuesday a package containing \$12,000 in currency was missing. The safe had not been tampered with, indicating that it had been opened by some one that had a key.

ABBOTTSFORD, Wis., May 22.—An operator of the Wisconsin Central road, named McNally, has been arrested here charged with the robbery of the express car safe of \$12,000. McNally has been taken to Colby for a preliminary hearing and in the meantime detectives are working actively on the case. There is a report that two keys to the money drawer and ticket case made by McNally were found on his person.

MICHIGAN.

Proceedings in Both Branches of the Legislature.

LANSING, Mich., May 22.—The Senate Thursday passed bills appropriating \$119,000 for the reform school, \$19,800 for the Ionia reformatory, reducing the legal rate of interest to 6 per cent, but allowing 8 per cent on special contract, and requiring that all dentists shall be graduates of some reputable dental college. The house passed a bill providing that all fraternal beneficiary societies shall be placed under the control of the commissioner of insurance and killed the bill providing for a separate state prison for women. A resolution fixing the date for final adjournment June 20 was introduced and laid over until today.

Appeal to Prohibitionists.

DE KALB, Ill., May 22.—M. H. Daley, member at large of the prohibition state committee, has issued an address to prohibitionists and the people in general, in which he says his party has made a mistake in supposing that a party can become powerful on the issue of moral reform alone and that it is time that they became politicians as well as reformers if they expect to get strength necessary to place candidates in office.

HAS JUMPED HIS BAIL.

The President of a Bursted Philadelphia Bank Said to Have Fled to Brazil.

PHILADELPHIA, May 22.—A great sensation was created in financial circles when it became known Thursday afternoon that G. W. Marsh, president of the defunct Keystone national bank, had forfeited his bail and fled to parts unknown. The excitement was intensified an hour later, when a brief line was read in the common council of the city from City Treasurer Bardsley announcing his resignation of his office, to take effect on the 30th inst. The sensation will be increased today when the people read a statement in the morning papers which Mr. Bardsley has just given out in which he virtually confesses that he has embezzled \$300,000, money belonging to the state, and announces his purpose to assign his property and seek restitution as is in his power. Since the failure of the Keystone bank, in which Bardsley had on deposit \$441,000 belonging to the city, he has confessed that he had deposited, in the same institution, in his own name and mixed up with his private account, all the state money he has collected, but he has persistently refused to tell the amount, until in his statement just issued he places the amount so lost at \$300,000. As the statement of the bank shows no such amount of deposit to the credit of John Bardsley at the time of the failure, the inference is irresistible that Mr. Bardsley has drawn the money out and used it. In fact, as before stated, he has admitted that the state funds were deposited to his private account in the bank.

Mr. Bardsley is responsible for the following sums: Due the state for taxes, \$931,000; due the city for deposits in the Keystone bank, \$441,000; due the city for deposits in the Spring Garden bank, \$140,000; total, \$1,512,000. The revelations regarding the state funds were a complete surprise to Bardsley's friends. What he has done with the money nobody except his counsel knows. The retention and loss of state funds is a misdemeanor, and Bardsley is prepared to go to jail if needs be. It is thought that this thing will lead to trouble for the state treasurer and auditor general, who should have compelled Bardsley to hand over the state funds before. So far as the city funds are concerned the city will lose more than half a million of dollars. In addition to the above statement Bardsley has a credit of \$100,000 in the Keystone bank to his own name. The man has not had \$100,000 in cash for years, and this is supposed to be city money. In addition another bank is expected to close its doors to-day. This concern has \$365,000 of city money on deposit. This will only add fuel to the flames, and create greater trouble here. The city finances are in an awful muddle, and the developments of to-day are anxiously awaited.

When Gideon W. Marsh was president of the Keystone national bank, who is accused of falsifying the returns of the bank to the comptroller of the currency, was called at the examination Thursday morning Mr. Marsh failed to put in an appearance. His counsel stated that he did not know where he was, and that he had not seen him since last Saturday. Mr. Marsh was under \$20,000 bond to appear at the examination. As his bondsmen were unable to produce him his bail was declared forfeited. District Attorney Read said in the absence of Mr. Marsh that he would go on with the case against the ex-assistant cashier Charles W. Lawrence, who is charged with the same offense.

The non-appearance at the hearing of Marsh, the accused president of the bank, caused a great sensation. His flight and forfeiture of his bail were a perfect surprise to his counsel, his bondsmen and his friends. As far as can be learned no one seems to know anything positive of Marsh's movements since he left the court-room Saturday last at the conclusion of the hearing that day. Marsh formerly lived at Ridley Park, a suburban town near here, but since the trouble into which he has fallen he sold his property there and moved into the city. Some days ago he sent his family to Atlantic City, but diligent search there failed to find them.

Ruin in Houston.

HOUSTON, Tex., May 22.—The fire which started Wednesday evening in the mill of the Phoenix Lumber Company swept five blocks of lumber yards and six blocks of residences, together with St. Patrick's church. The water supply was totally inadequate, and the Calverton fire department was called upon. Altogether the loss will aggregate at least \$300,000.

Coke Workers Surrender.

PITTSBURGH, Pa., May 22.—Everything points to the early ending of the great coke strike. The strikers are weakening, and big breaks in their ranks are reported from various places in the region. None of the new men will be discharged. The deputies are being paid off and discharged.

JUDGE TAFT DEAD.

The Ex-Cabinet Officer and Diplomat Succumbed to His Illness at Los Angeles, Cal.—Sketch of His Career.

WASHINGTON, May 22.—Attorney General Miller has been informed by Solicitor General Taft of the death Thursday morning at Los Angeles, Cal., of his father, ex-Attorney General Alfonso Taft. Orders were issued to drap the war department and the department of justice buildings in mourning for thirty days and to close both departments on the day of the funeral. The remains will be taken to Cincinnati for interment.

(Judge Taft was born in Townsend, Vt., in 1810, and was the son of a farmer who served several terms in the state legislature. In 1829 young Taft began teaching district school when not needed on the farm. In 1829 he entered Yale college, from which he graduated in 1832. After graduation he taught a high school at Ellington, Conn., two years, and subsequently for two years filled the position of tutor in Yale college. In 1837 he was admitted to the bar in 1838. In 1839 Mr. Taft removed to Cincinnati, where he practiced his profession successfully. He was twice elected to the bench—once without opposition—and was once appointed by the governor to fill a vacancy. After the resignation of Gen. Belknap in March, 1876, Judge Taft was made secretary of war, which office he held until the May following, when he became attorney general.)

CRASH ON C. & N. W.

Trains From Janesville to Chicago Blocked By Wreckage.

TWELVE FREIGHTS DEMOLISHED.

A Broken Link Files a Dozen Cars By the Side of the Road and Makes Work For the Repair Trains From Various Points.

WOODSTOCK, May 22.—[Special.]—A broken connecting link caused two sections of a Chicago & Northwestern freight train to crash together near here at 7 o'clock this morning. A dozen cars were wrecked and scattered along the track. Luckily no one was hurt. The train broke in two while descending a steep grade and the first section lightened by the break dashed ahead. The rear half was uncontrollable and gathered speed at every revolution of the wheels. The trainmen were aware that a wreck was inevitable and none of them were hurt. The two sections came together with a crash that knocked the cars about like ninepins and completely blocked the road.

Two wrecking trains, one from Chicago and one from Janesville, were sent for and began clearing up the debris. All trains from the south were delayed, but the limited which left Janesville at 5:55 this morning had passed before the wreck and was not delayed. The accident happened between stations and reports from the scene are meager.

TO FIGHT IN TWO STATES.

The Third Party Power to Be Concentrated in Ohio and Kentucky.

CINCINNATI, May 22.—The people's party has decided to concentrate all the power of the organization in the two states of Ohio and Kentucky. The former state votes in August, and all the best alliance and Knights of Labor speakers will be sent there. It is said that Brown, the democratic nominee for governor, is unpopular with the farmers, and that the alliance, which has an organized voting strength in the state, will not support him. Some of the Kentucky third-party people say they can carry the state, and this will go into the campaign at once. The fight in Ohio promises to be a most interesting one. The first real struggle will take place at the state convention next Tuesday, when an effort will be made to commit the union to the third party. It has heretofore been a strong republican organization, but many of its leaders are now training with the new party. The republicans are aware of the danger and some of the best politicians in the state will go there to try and prevent any endorsement of the people's party. It is understood that McKinley himself has been urged to attend. If the union should declare for the third party, the defeat of McKinley for governor would be a foregone conclusion, as the new party with the endorsement of the union could poll at least 75,000 votes in the country districts.

The national executive committee held a meeting on Thursday and filled the vacancies which had been left in its organization. Robert Schilling, of Wisconsin, and M. C. Rankin, of Indiana, were unanimously elected secretary and treasurer respectively.

The committee informally discussed a plan for a vigorous campaign all over the country. Ohio will be the first point of attack. A state ticket is to be placed in the field next month and Congressmen Simpson, Gen. Weaver and others will stamp the state from one end to the other. A national campaign fund of \$100,000 is also to be raised.

The committee authorized the chairman and secretary to issue a call for voluntary contributions to be kept standing in all reform papers. It was also resolved that a national executive committee be formed to consist of the chairman, secretary, treasurer and four members to be elected by this committee. The four elected are George F. Washburn, of Minnesota; C. F. Gaither, of Alabama; Ignatius Donnelly, of Minnesota, and J. H. Davis, of Texas.

KENTUCKY REPUBLICANS.

They Meet at Lexington and Place a State Ticket in the Field.

LEXINGTON, Ky., May 22.—The republican state convention closed its labors here Thursday afternoon by electing the following ticket: For governor, T. A. Wood, of Mount Sterling; for attorney general, L. V. Crawford, of Newport; for treasurer, Eli Farmer, of Somerset; for superintendent of public instruction, L. V. Dodge, of Berea; for register of the land office, W. J. A. Rardin, of Greenup; for clerk of court of appeals, E. R. Blaine, of Lexington. The resolutions as adopted endorse Harrison's administration, the new Kentucky constitution, and pray congress for an election law that will give every American citizen equal rights at the polls. Henry E. Huston, nominated for lieutenant governor, is an ex-confederate soldier, having served four years under Gen. John H. Morgan.

LYNCHED.

How a Crowd of Infuriated Indians Served a Brute.

EVANSVILLE, Ind., May 22.—News was received here Wednesday night of the waylaying and assassination of a little white girl, 13 years old, the daughter of George Bowles, by a negro named Jennings. The negro was captured in a strip of woods a few miles from the scene of the assault, and while on the way to the jail a party of neighbors of Bowles took the brute from the guards, put a rope around his neck, and dragged him into the air, afterwards filling his body with bullets. Jennings, before being hanged, acknowledged his crime and pleaded for mercy.

Railway Shops Burned.

ALBANY, N. Y., May 22.—The blacksmith and machine shops of the New York Central railroad at West Albany have been destroyed by an incendiary fire. Much valuable machinery was lost. The loss is about \$200,000, well insured.

ODDS AND ENDS.

The estimated population of the world is 1,450,000,000.

It is well known that rabbits, rats and squirrels all eat apples.

The camel will eat figs with all the relish that a person will.

While the girl of the period is shining in the parlor her mother is shining in the kitchen.

The lace ruffs of the cavaliers were a cause of hissing and an offense in Roundhead eyes.

A lady visiting a hospital gave a soldier who had lost both his legs a tract on the sin of dancing.

France spends nearly 1,000,000 francs a year in providing warm meals for the poor school children.

The English Law Times reports general complaint among lawyers of lack of business. "Crime and contention are both declining."

It is well to varnish an oleoth twice a year, and if you do a good one will last you as long as you want it to.

In Athens fifteen public schools remained closed all last year because the teachers refused to teach until their salaries should be raised.

General James A. Ekin, who died at Louisville a few days ago, was one of the military commissioners who tried Mrs. Surratt.

The discoveries of tin in Germany 500 years ago, which never became important, were practically abandoned several years since.

What we wish and what we want are sometimes very different things, although in everyday speech the two words are often used interchangeably.

The French chemists who some months ago succeeded in making small rubies have now overcome all difficulties, and can make them of very much larger dimensions.

Treed by a Varmint.

As Sylvester Cole was returning at night from his work in the mill, when within about half a mile of the house he saw something coming toward him, which in the twilight he took to be his dog, and spoke to him accordingly; but he soon learned that instead of his being his dog it belonged to the feline tribe, and a pretty large one at that. The animal approached to within some ten feet of him and crouched upon his belly, very much like a cat when intending to spring upon his victim.

Mr. Cole had nothing with which to defend himself except a jackknife in his pocket, and so began to step back toward an old hedge, hoping to get hold of a stake or some kind of cudgel, keeping his eye on the animal, which continued to advance and was apparently ready to spring upon him at any moment. Finding nothing whatever for defense except a small sapling tree, he climbed that as far as he could with- out its bending over, and then began to walk for assistance. Mr. Cole was now fairly treed, but only four or five feet up the tree, and the animal was about as far from the butt of it, and within easy reach by making a spring. He began to think he was about to fall a prey to some wild beast.

After remaining in that position for nearly three-quarters of an hour, as it seemed to him, his folks heard him, and soon made their appearance with the dog and lantern. The animal, seeing them coming, started leisurely off into the woods. Mr. Cole describes the beast as nearly the size of a sheep, of a dull yellow color, somewhat shaggy, a short, round head, with bright glittering eyes and small ears. In short, he says, it resembled a small lion, but had no idea as to what kind of an animal it was.—Cor. Oxford (Me.) Democrat.

Bathing and Walking for Corpulency.

An injunction which appears quite uniformly in works which treat of corpulency is to employ cold baths. Undoubtedly these favor a reduction in weight. But few corpulent people, however, can take them, either in the form of full baths or sponge baths. Circulation in such people is notoriously sluggish, and claims only to be recovered quickly from the chill of a cold bath, as all should do who indulge in it.

If a cold bath is applied, and reaction occurs after hard rubbing for a minute or two, the skin is reddened and the subject is in a warm glow, it can safely be assumed that the bath has been well borne and done good. The person who does not present these favorable signs should limit himself to a bath of tepid water, the same to be taken in a warm room.

As for exercise, it is scarcely possible at first to persuade corpulent people to take as much as they ought. Where they are thoroughly in earnest, however, they soon learn to enjoy it, and feel the deprivation when it is denied them. Gymnastic exercise under competent teachers is, of course, the best, but walking is highly beneficial, and can be made to answer every purpose. It should be borne in mind that a sharp, brisk walk, which produces a perspiration, is far better than a long, leisurely stroll, owing to the greater elimination of waste.—Boston Herald.

A Thoughtful Spouse.

Mr. Suburb (after a long weary tramp to his nearest neighbor)—Good evening, Mrs. Lawnmower. I find my wife has not returned from her shopping trip to the city, and the house is locked up. She left the key here, I presume? Mrs. Lawnmower—No-o. She said it was a pity you should have to take such a long walk for the key every time she was out, so she put it under the front door mat.—New York Weekly.

Changing Defeat to Victory.

The genius of Sheridan at Winchester changed defeat to victory. So when feeble adversaries in the shape of inefficient remedies fail to stay the progress of that obstinate and malignant foe, malaria, Hostetter's Stomach Bitters turns the tide—drives the enemy back. Nothing in materia medica, or out of it, compares with this as an opponent of every form of malarial disease. Chills and fever, dumb ague, bilious remittent and ague cake—it matters not—one and all are extirpated by the Bitters. To take a course of the great preparative in advance of the malarial season, is to buckle on, as it were, an armor of proof which defies attack. So fortified, so protected, you shall be scatheless. Remember, too, that the Bitters is an eradicator of liver complaint, constipation, rheumatism, kidney complaints and dyspepsia.

F. A. BENNETT,

Corner of Wall and Franklin Sts., Janesville, Wis.

DR. E. J. NICKERSON, THE EXPERT SPECIALIST IN Nervous, Kidney and Private Affections. This eminent physician has left the practice of what is termed orthodox practice for the express purpose of placing his skill and ability at the service of the suffering portion of humanity. Having devoted a lifetime to the study of private, nervous blood and skin diseases, he has found the safest and quickest methods by which they may be cured. Dr. N. does not pretend to perform miracles, he claims only to be a skilled and successful physician, in private, nervous and complicated conditions of the body, and the cure of future suffering? Have you perverted that which weakens and depresses? Have you heartburn? Are you afflicted with indigestion? Is the food you eat passing through the bowels in the mouth, disintegration for study or business, groundless fears, nervousness, drowsiness, confusion of mind, and fatigue of body, trembling, impaired appetite, involuntary drooping of the eyelids? If you have any of these symptoms do not delay as an expert my time may not always be at your command. Consultation, personal or by letter, free. No quackery. No quackery. No quackery. Cures guaranteed. Stricture dissolved and removed with medicines alone. No knife or instruments used.

DR. NICKERSON, 404 State St., Chicago, Ill.

DR. E. J. NICKERSON, THE EXPERT SPECIALIST IN Nervous, Kidney and Private Affections. This eminent physician has left the practice of what is termed orthodox practice for the express purpose of placing his skill and ability at the service of the suffering portion of humanity. Having devoted a lifetime to the study of private, nervous blood and skin diseases, he has found the safest and quickest methods by which they may be cured. Dr. N. does not pretend to perform miracles, he claims only to be a skilled and successful physician, in private, nervous and complicated conditions of the body, and the cure of future suffering? Have you perverted that which weakens and depresses? Have you heartburn? Are you afflicted with indigestion? Is the food you eat passing through the bowels in the mouth, disintegration for study or business, groundless fears, nervousness, drowsiness, confusion of mind, and fatigue of body, trembling, impaired appetite, involuntary drooping of the eyelids? If you have any of these symptoms do not delay as an expert my time may not always be at your command. Consultation, personal or by letter, free. No quackery. No quackery. No quackery. Cures guaranteed. Stricture dissolved and removed with medicines alone. No knife or instruments used.

Decline of the Non-Advertising Class.

It is curious to watch how old things are passing away, and "all things become new." In not one only, but in many trades, pursuits and professions, methods have been completely revolutionized, and it has become the fact that such means as used to bring success in the olden time are now obsolete, discarded and wholly lacking in utility. Take the great daily newspaper of today, for an example. Who would be satisfied with the papers of even thirty years ago, printed as they were in their comparatively small circulations on the lumbering presses of that period? The perfecting of the stereotypers' art brought in a new era of newspaper enterprise, and now circulation is of two or three hundred thousand are printed on the fastest printing machines of the day in an hour or two—the machines being increased in number as required, and the stereotyping process being equal to the manufacture of as many duplicate pages as may be needed.

It is an age of *stir*. Men must move, and they must make their business move. The man who doesn't advertise in the newspaper is a back number. A man as a curiosity as a relic, and the boys ask him where he got his hat. He is behind the times. The race to which he belongs is nearly extinct. The advertiser has most of the business the relic used to have, and will soon have the rest. And where will the relic be then? What can he do but to retire from the newspaper, and join his ancestors in the silent city where not only are the news—that place whose inhabitants are noted for being "unanimous" and for "letting well enough alone?" No trade revolution is more complete—none better established—than the change which has been worked in the matter of newspaper advertising. The merchant who doesn't use the newspaper advertising columns freely is doomed. The merchant who uses them freely and judiciously must reap great rewards.

Advertising Aphorisms.

Too little advertising is like planting too little seed.

A can of printer's ink is not to be fooled with any more than a can of dynamite. Both are as effective and dangerous if used carefully as they are dangerous if used carelessly.

The successful advertiser not only addresses that place whose inhabitants are noted for being "unanimous" and for "letting well enough alone?" No trade revolution is more complete—none better established—than the change which has been worked in the matter of newspaper advertising. The merchant who doesn't use the newspaper advertising columns freely is doomed. The merchant who uses them freely and judiciously must reap great rewards.

Endurance.

How much the flesh may suffer, and yet not break! How much the heart may suffer and not die! I question much if any pain or ache Of soul or body brings our end that is sworn. Death chooses his own time till that is sworn. All will be better.

We shrink and shudder at the surgeon's knife. Each nerve recoiling from the cruel steel. Whose edge seems searching for the quivering life.

Yet to our sense the bitter pangs reveal That still, although the trembling flesh be torn, This also can be borne.

We see a sorrow rising in our way. And try to flee from the approaching ill. We seek some small escape, we weep and pray; But when the blow falls, then our hearts are still.

Not that the pain is of its sharpness shorn. But that it can be borne.

We wind our life about another life; We hold it closer, dearer than our own; Anon it faints and falls in deathly strife. Leaving no small escape, we weep and mourn— But ah! we do not die with those we mourn— This also can be borne.

Behold, we live through all things—famine, thirst, bereavement, pain, all grief and misery. All woe and sorrow; life inflicts its worst On soul and body—but we cannot die. Though we be sick and tired and faint and worn— Lo, all things can be borne.

—Florence Percy.

How to Advertise.

The question of method in advertising is one having infinite range. The matter is one of the very first importance, and cannot be too carefully studied. One thing about it that may be set down as true is that every man's advertising, in its language and style, should be characteristic of his own mind. The man, characteristic of his stock, characteristic of his commercial position. For every man has his peculiarities of development. When he speaks we know it is he, though we may not be looking at him, and his advertisement should represent him like his voice. He should put his experience, his industry, his enterprise, into his advertising. It is astonishing to see how few merchants who are tireless in their industry—at the store early and late, close buyers, eager seekers after business, quick to embrace opportunities for enlargement of lines and extension of trade—it is surprising to see how such business men continue their advertising in the language of the old rut, and announce in the same way the same type that did work for generations of their fathers.

The successful advertiser not only addresses that place whose inhabitants are noted for being "unanimous" and for "letting well enough alone?" No trade revolution is more complete—none better established—than the change which has been worked in the matter of newspaper advertising. The merchant who doesn't use the newspaper advertising columns freely is doomed. The merchant who uses them freely and judiciously must reap great rewards.

HEDGE FOR 15 MILES

Rock County Farms Surrounded
By Honey Locusts.

A BARRIER OF THORNS AND TWIGS.

In Four Years the New Fence Will Be
Tight Enough to Stop Anything
Bigger Than a Bullet and Will
Cost But Little.

Rock county farmers, especially those on prairie lands, are much exercised about the honey locust and its adaptability for hedges. A year ago several farmers visited Kalamazoo, the headquarters of the Michigan Hedge Company, for the purpose of investigating the matter, and brought back very flattering reports concerning the honey locust hedges which they inspected. These men were very enthusiastic in favor of adopting the hedge. Their agitation has resulted in many farmers making contracts for the hedge, some for forty rods, some sixty and one hundred and sixty, until it is now claimed that at least five thousands rods have been planted in Rock county this spring. Much of this is on the prairie lands in the towns of Harmony and La Prairie. Alderman Vankirk is now engaged in planting eighty rods on his farm just west of the city, and probably will do more.

The honey locust has long had a good reputation for hedges, but it was not until the Michigan Hedge Company secured certain patents on wire stays in connection with the locusts, that its service ability for fencing were fully realized. The locust plants are set out on the fence line about six inches apart. It requires four years growth to complete the hedge and secure a fence that even a bird can not get through it. After setting the locusts, and as the hedge advances in growth, four wires are strung, which are used as stays, the locusts being turned and woven between the wires in such a manner that they grew together, finally forming a perfect stay by themselves as well as a solid barrier against any animal. This hedge costs one dollar a rod, the company contracting to put out the hedge and take care of it for four years, the farmer paying twenty-five cents a rod each for the four years, at which time the hedge is supposed to be perfected.

It is claimed that in a few years the trunks of the plants, originally set six inches apart, will have grown together. These, by a system of trimming will be from three to four feet high, forming a solid barrier against any animal. Branches, filled with thorns of various lengths, serve as a warning to stock, and the hedge is never molested. It is claimed that after the fourth year from planting, when the hedge has cost the farmer one dollar a rod, it can be kept trimmed in good shape and in repair for one cent a rod a year.

Years ago many farmers endeavored to grow orange hedge rods, but failed owing to the severe winters. Should the locust prove a success, it will greatly ornament the farms as well as proving an economic mode of fencing.

SUCKERS BY ANOTHER NAME.

The Lone Fisherman Gives Fred Vankirk Points on Angling.

"What kind of a fish is that?" asked an old man with a basket on his arm and clay pipe in his mouth, as he pointed to the box with a long cover at Fred Vankirk's this morning.

"That is a white fish."

"Do they catch them in the river here?"

"No, they come from Lake Superior."

"Gimme one."

"All right, forty-five cents, please."

"What?"

"Forty-five cents is what that fish costs."

"I guess I won't buy. That is too expensive. I'm going fishing myself. See, I got a fish line in my pocket. They catch white fish in the gas pond, but they don't call them whitefish."

"Suckers?"

"Yes, that's it. Want to buy any if I catch more than I want?"

"No thanks" replied Fred, "they are too bony."

"All right, I just wanted to know. Good bye. I see you don't know much about fish. You see that good thing about fish. You see it. I'll take my fish to some live grocery man who will appreciate them. If you don't sell any fish for a week don't blame me. I made you a good offer."

TEACHERS DISCUSS METHODS

Fifty Birch Willers in Session in this City To-Day.

Fifty of Rock county's teachers sat at the desks in the High school room this morning. Many High school seniors were also present and listened to the exercises that opened the annual meeting of the Rock County Teacher's Association.

Professor John Naegler was elected chairman, Albert Hatherall enrolling secretary and Mary Davis recording secretary.

The first paper to be read was "How Much Geography Should be Taught?" by G. H. Lawton. Mr. Lawton said that more time should be devoted to the study of the state, county and United States. Other countries were changing so much that the study was of less practical value, except when handled in a very general way.

"Primary Language" was the subject of Miss Mary Spaulding's paper. Miss Spaulding held that it was better to write stories and converse with the children rather than hold formal exercises.

This afternoon the exercises opened with vocal music by a quartet consisting of Professor Cooley, Ed. Church, Rev. E. L. Eaton and George P. Paris, followed by W. D. Williams' paper on "Science in the School," "Upper Form Arithmetic" by B. G. Bleasdale, and Miss Mary Swanson's address on the "Pollard System."

Eighteen teachers came up from Beloit this morning to attend the institute.

ATTEMPTED SUICIDE.

A Tenor of the Sea King Opera Company Decides To Die.

Thomas Caldwell, the handsome tenor of the Sea King Company, which recently appeared in this city, shot himself twice in the breast last Monday night at Louisville, Kentucky, where the company was playing a week's engagement.

The wounds are serious, but there is no danger of fatal results. To those who were first

to respond to the shooting he muttered: "For God's sake, give me a chance; it was an accident." It is said that Caldwell's attempt on his life was because of a love affair with one of the chorus girls. The company a short time ago played in Chicago, where it is said the would-be suicide had made an unsuccessful attempt on his life.

BIG THING FOR FARMERS.

The Rain Storm Meant Thousands of Dollars to Rock.

Farmers are blessing the weather clerk as they watch the tender shoots of the grain that will be turned into money next fall. The rain has saved thousands of dollars for the farmers in Rock county, and has done much to insure good trade in all branches of business and lively markets. Before the flood gates were opened the earth was parched and grain that was planted some time ago was drying up instead of sprouting. The young leaves on the trees were beginning to shrivel and great cracks could be seen in the ground.

Now all is different. Brown sun-baked fields are black, while green shoots stick up through the crust everywhere.

SCOURGE VICTIM LAID TO REST.

Funeral Services of Little Mary Lutz Held This Afternoon.

Little Mary Lutz was buried in Oak Hill cemetery this afternoon. Brief funeral services were held at the home of the parents, Alderman and Mrs. August Lutz, corner of South Academy street and Washington avenue at half past 2 o'clock.

Rev. J. P. Albrecht, of St. Paul's church, officiating. A large number of friends escorted the remains to the cemetery.

Diphtheria On Milwaukee Street.

The flats at 108 West Milwaukee street have been quarantined on account of diphtheria, Miss Sadie N. Linnen being ill with the disease.

HENRY RICHARDS DEAD.

The End Comes At His Home In Chicago This Afternoon.

Henry Richards, an old-time resident of Janesville, died at his home in Chicago at 1 o'clock this afternoon. He had been ill for some time of stomach trouble.

Mr. Richards stood high in the Masonic fraternity and at one time was chief engineer of the Janesville fire department.

Funeral services will be held Sunday afternoon in Chicago.

HIS RACE WAS WITH DEATH.

A Young Man With Too Much Liquor Aboard Thrown from His Wagon.

James Norton, a Beloit young man, was so badly hurt during a runaway on Tuesday that he died at 9 o'clock last evening. Norton was drawing wood and whipped his horses for a race. He was thrown upon the wheel, both legs were broken, and the skull crushed. He was about twenty-five years old and leaves a wife and one child.

BLINDED BY PLASTER.

Harry Hinton, of Milton Junction, Likely To Lose His Eyesight.

Harry Hinton, a Milton Junction mason contractor, is suffering from the effects of a peculiar accident. While plastering at Fulton some mortar fell in his eyes, and he may lose his sight.

TONIGHT'S PROGRAMME.

W. H. SARGENT Post No. 20, G. A. R., at Post hall.

BOWER CITY Temple No. 3, Patriarchal Circle; at Liberty hall.

PEOPLE'S LODGE No. 469, Independent Order of Good Templars, at Lodge room in Courtstreet block.

DR. B. T. SANBORN VERY ILL.

Physicians in Consultation Over His Case in Chicago.

Dr. B. T. Sanborn is dangerously ill at his home in Chicago. Dr. Henry Palmer has been called to Chicago to consult with the attending physician. The latest reports were that Dr. Sanborn was in a very critical condition.

TOLD IN TWO LINES.

A. A. JACKSON visited Chicago today.

MRS. S. B. KENYON is dangerously ill at her home on Milton avenue.

P. HELMOLD, of this city, has been granted a patent on a device for holding brushes.

ALDERMAN T. B. EARL, of Edgerton, visited Janesville today and left his autograph at the Myer's house register.

THE Sophomore room of the High school entertained the public this afternoon in the High school with rhetorical exercises.

THE family circle at the home of Mr. and Mrs. Charles Atwood, South Jackson street, was increased by the arrival of a little son.

CAPTAIN ISAAC MILES, of Morristown, Indiana, is in the city, called here to attend the funeral of his brother, Jesse Miles, which will be held Saturday afternoon.

A. A. WILSON, of Chicago, representing Bramhall, Dean & Company, boiler and range makers, is in the city figuring on the furnishing of the Myer's house kitchen.

MANY young people attended the public party given by the Concordia Society at their hall last evening. Smith's orchestra furnished the music and the revelry lasted until early this morning.

A SOCIAL party will be given at Arnold's hall, Hanover, next Thursday evening, May 28. Tuckwood's orchestra will furnish the music. W. F. Dettmer and B. Schoof, of this city, are among the floor managers.

THE lady friends of the P. O. S. of A. will give a social dance at G. A. R. hall on Saturday evening, May 23. All members of the order and their friends are invited. The ladies pay the expenses. Tickets will be fifty cents.

In consequence of the Mills meetings which are being held in this city by a number of the churches, Rev. Mr. Evans is unable to have the memorial services in his church on Sunday, May 24. This is a matter over which Mr. Evans has no control.

RECOVERING FROM A JANESVILLE MISHAP.

Edgerton Reporter: Mrs. Warner, of this city, who had the misfortune to fall and break her limb while at Janesville about two months since, has so far recovered from her injuries that she was brought home by train last Friday morning. While she is still unable to use the fractured limb she is slowly gaining and hopes to ultimately recover from the accident.

SAYSIT'S ABLUNDER.

Mr. Winans Speaks of the Lighting Bill's Fate.

IS THE CLERICAL ERROR FATAL?

The Assemblyman Will Visit Madison Tomorrow and Will See Whether the Mistake Can Be Remedied-The Blame Will Also Be Traced Down.

"I am surprised about that amendment to the city charter increasing the gas fund," said Assemblyman Winans this morning. "I am positive it was in the bill as it passed the House and Senate. I instructed Fred Burpee to follow and watch the bill until it got through. I think the error was made in engrossing or enrolling rooms. I am going to Madison tomorrow and will make it a point to investigate the matter and see where the mistake is."

"How will it be, supposing the bill passed the two houses, and the clerks in the engrossing or enrolling rooms blundered? Can the blunder be corrected now?"

"I am not quite sure, but think it can. Yet there are grave doubts. I think there is a general law applicable to such errors, where they are made clear. I think the bill can be corrected, again presented to the governor, and republished. However, I will look this matter up when I go to Madison tomorrow. You see, the law as published amends the same section but does not include the subdivision. It may possibly turn out that it is a fatal error, in which case we shall have to get along as best we can."

NOT STOPPED BY STORM.

Mr. Mills Greeted by a Large Congregation Despite the Rain.

The storm of last evening did not prevent a full house at the Congregational church, indicating that the interest in the Mills' meetings still continues. Dr. Hodge made the statement that Mr. Mills and Mr. Greenwood had worked faithfully and earnestly, and that no charge would be made for their services, neither would a collection be taken or a subscription paper be passed; at the same time, people who desired to remember these earnest workers with a free will offering could do so by placing the same in an envelope either with or without their names, and hand it to either one of them, or to any of the pastors at any time before the meetings close.

Mr. Mills spoke from the text: "Therefore they could not believe." He believed that it was not only possible but very probable that many people turned away from God so repeatedly as to reach a condition of heart where belief was impossible. This truth was demonstrated by a three fold cord.

"The word of God; the testimony of science, and the testimony of observation."

The speaker read many passages from the Bible to substantiate the statement, making a very strong argument.

The sin against the Holy Ghost was not a particular sin, but might mean any sin. The gift of the Holy Ghost was God's greatest gift to man; greater even than the gift of His Son.

Science teaches that everything is tainted with death. The tree dies when it ceases to struggle for life, and man is constantly fighting for life.

When a soul ceases to be concerned for itself, it is dead.

Observation demonstrates the facts that unsaved men die in most cases unconcerned. A Christian physician of forty years experience, had said that he had never seen but two unsaved men pass out of this life with any concern for the future.

To the speaker this was most appalling and was proof that the soul was spiritually dead long before life was extinct.

The sermon was very strong and commanded close attention.

At the close many expressed a desire to know more of God and the after meeting was largely attended.

Sunday morning Mr. Mills will address men at the Congregational church, and Rev. Mr. Bunn will speak to women at the Baptist church.

HALL FACTORY CONTRACT.

Arrangements Made For Building Boiler and Engine Room.

A contract was closed today by the Spring Boiler Improvement Company for the foundation of the boiler and engine house of the Hall Furniture Company. On Monday next a representative of the E. P. Allis' Company will be in the city to estimate on a one hundred horse power boiler and engine for the factory. The indications are that the factory will be in running order with a force of seventy-five men by August 1.

At the close many expressed a desire to know more of God and the after meeting was largely attended.

Sunday morning Mr. Mills will address men at the Congregational church, and Rev. Mr. Bunn will speak to women at the Baptist church.

HIS HORSES COULD WALTZ.

A Tale That Concerns Janesville's Well Known Dancing Teacher.

C. C. Williams, who taught a dancing class in Janesville two or three winters, is now running a farm near Whitewater. The local day school, on the Jarvis street, criticized the decidedly crooked furrow which Williams was plowing. "Perhaps it is because he is a dancing master," said Jarvis. "Yes, that must be it; he is teaching his horses to waltz," was the traveler's comment.

'T WAS A HEAVY RAINFALL.

Nearly an Inch and a Half of Water Fell Last Night.

Forecast for Janesville and vicinity pleasant and cooler.

The temperature as observed by E. B. Heintzel during the last twenty-four hours was as follows:

At 7 a. m. 44 Maximum 73

At 1 p. m. 54 Minimum 37

Rainfall in the last twenty-four hours, 1.35 inches.

HORSE SHOEING WELL DONE.

M. A. Eddington, while he does not claim to be the world's champion horse shoer, takes pride in doing his work well and to the entire satisfaction of his customers and comfort to the animals. He runs a general blacksmith shop, on the corner of rapids in his line. He is a thorough smith, and employs good workmen, the result being a good share of patronage. His charges are always reasonable, and in keeping with his excellent work. His shop is located on Court street, opposite the Methodist church. He makes tire setting a specialty.

ARE GOOD HOTEL MEN.

In copying an item from the Gazette the Logansport Daily Pharos says: "The new proprietors of the Myers House: 'The people of Janesville will find the new proprietors first class hotel men and genial fellows. Mr. Paddock's many friends in Logansport send their best wishes for his success.'"

BIG FIRE AT SHELLVILLE, TENN.

NASHVILLE, Tenn., May 22.—At Shellville, Tenn., at an early hour Thursday morning R. A. Taylor's grocery, Counsel row, the National bank row and Commercial row on the west side of the square and Bridge avenue were burned. The loss is between \$20,000 and \$25,000, insurance about \$10,000. The outfit of the Shellville Commercial was almost totally destroyed.

'MOGUL' ENGINES SPREAD FIRE.

Cnaimen Warned to be Careful With the Ten-Wheelers.

The Chicago & Northwestern "mogul" engines are causing trainmen great annoyance, owing to the construction of the ash pans, which allow coals of fire to drop out on the road-bed. Instances where the ties and woodwork of bridges have been set on fire are common, and trainmen have been notified to be very careful and watch closely for fires. The pans are being changed as rapidly as possible on all the engines.

BALLASTING THE SIDE TRACKS.

Yardmaster Bidwell of the Chicago, Milwaukee & St. Paul, did conductor's duty today. He had charge of a train of three cars of cinders to be used in ballasting up the side track system.

NEW MEN WORK WELL.

Trains are arriving and leaving on the Chicago & Northwestern road as regularly as before the switching trouble. The new men seem to handle the cars as well as the old force.

SPARKS AND CLINDERS.

The Chicago & Northwestern Railway Company are making preparations to build a new bridge over Rock river at Jefferson.

Conductors report that rain fell throughout the entire state last evening.

J. L. Hay, the gentlemanly baggage-man in the Chicago & Northwestern train, is in Chicago on business.

C. E. Miner, traveling passenger agent for the Mexican Central railroad, visited Janesville today.

HUNTER BROTHERS ARE WINNERS.

Verdict of \$1,268 in Their Favor in the Circuit Court.

Hunter Brothers won their suit in the circuit court yesterday and the case was an interesting one.

Charles Hatch, of Stockbridge, bought a horse of Hunter Brothers, the price being \$1,250. In the contract, Hatch claimed, was a clause whereby the Hunter Brothers agreed to submit to him at the end of the season of 1890 a list of prices of all the horses they sold, and if the sum that Hatch paid exceeded the difference price for the horses sold, the difference should be refunded to him.

Hatch claims that he came to Janesville and informed Hunter Brothers that he had bought a horse of theirs, and that he would submit the matter to the court.
